
ALDREAN KENT P. AGAD

Ulha Village, Pomelo St., Davao City 8000 • agad.kent25@gmail.com • 09457764588

Career Objective

IT graduate with hands-on experience developing web and mobile applications using HTML, CSS, PHP, JavaScript, React Native, Go, MySQL, and Supabase. Seeking a software developer role to contribute to innovative solutions while continuing to grow technically.

Experience

SonSystems Software Solutions

Davao City, Philippines

Fullstack Developer

Jun 2026 – Jul 2026

- Developed and designed a digital charting system for PhilHealth doctors to manage patient records, diagnoses, and treatment histories, allowing doctors to access records from anywhere in the hospital, using Go, React, and SQLyog.
- Collaborated with a small development team using Agile methodology and Git for version control.

Bevanda Inventory and Booking System

Davao City, Philippines

Fullstack Developer

May 2026 – Jun 2026

- Built a complete booking and reservation system with integrated inventory management and daily inventory tracking using Django, React, and MySQL.
- Implemented real-time inventory updates that automatically deduct stock once a reservation or booking is made.
- Worked closely with fellow developers to design and implement the booking and inventory modules as a team.

SonSystems Software Solutions

Davao City, Philippines

Fullstack Intern

Nov 2025 – May 2026

- Developed and designed a patient digital charting system for the Yakap for PhilHealth program, enabling efficient storage and retrieval of patient medical records using Go, React, and MySQL.
- Worked within a cross-functional team to build, test, and refine the charting module.

Projects

- Portfolio Website (Personal Project) — Built a responsive personal site to showcase projects and skills using React and Tailwind CSS.
- AI-Powered File Management System (Personal Project) — Built a tool that auto-organizes and tags files using AI-based content classification.
- AI-Enhanced Email Management Automation (Personal Project) — Automated email sorting and reply drafting using AI, reducing manual inbox handling.
- Inventory and Booking System (System Integration Project) — Designed the architecture connecting inventory, booking, and payment modules into one system.
- Location-Based Navigation for Toril Public Market (Capstone Project) — Implemented GPS-based wayfinding to help users locate vendors and stalls within the market.

Education

Ateneo de Davao University

Davao City, Philippines

Bachelor of Science in Information Technology

2022 – 2026

Relevant Coursework: Web Development, Database Management, Software Engineering, Systems Analysis and Design, Programming, Networking

Ateneo de Davao Senior High School

Davao City, Philippines

Pre-Engineering Studies (STEM)

2020 – 2022

Skills

- Programming & Frameworks: Django, Flutter, React.js, JavaScript, Go
- Databases: MySQL, Firebase
- Tools & Platforms: Git, GitHub, VS Code, Figma, SQLyog, Microsoft Office, Canva, GIMP
- Certifications: Cisco CyberOps Associate
